

Amrik Singh Ahluwalia
Department of Botany, Panjab University
Chandigarh 160014, India
+91 172 2534002, +91 98159 84489
phykos@pu.ac.in, amrik.s511@gmail.com

PROFILE

■ *Present Designation*

Professor

Department of Botany
Panjab University, Chandigarh

■ *Nationality*

Indian

■ *Marital Status*

Married, with two children

■ *Date of Birth*

February 2, 1955

■ *Residential Address*

G-6, Sector 14, Panjab University, Chandigarh 160014

EXPERIENCE

■ *Teaching – 35 years*

B.Sc. (Hons. School), M.Sc. (Hons. School), M.Phil., Ph.D.

■ *Research – 37 years*

Coordinator, DRS (UGC) **2007-2011**

Deputy Coordinator, DRS (UGC) **2002-2007, 2013-2018**

Supervision of M.Sc., M.Phil. and Ph.D. Students

Own Research

■ *Administrative experience*

Chairperson (Nov 1, 2011-Oct 31, 2014)

Department of Botany

Panjab University, Chandigarh

Dean, Students' Welfare (Aug 1, 2011-July 31, 2013)

Panjab University, Chandigarh

Director, Youth Welfare (Oct 30, 2011-May 2, 2012)

Panjab University, Chandigarh

Dean, Faculty of Science (Feb 1, 2009-Jan 31, 2012)

Panjab University, Chandigarh

Treasurer (2008-2009), Vice President (2009-2012), President (2012-2015)

Asian Allelopathy Society

People's Republic of China

President (Aug 2006-Aug 2008)

Panjab University Teachers' Association (PUTA)

(elected unanimously for second term)

Convener (Aug 2006-Aug 2007)

Punjab Federation of University Teachers' Associations (PFUTA)

(elected unanimously)

Member Executive (2009-2012), Vice President(2012-2015)

Punjab Academy of Sciences

Coordinator

Common Entrance Test, CET (2011), (PG-CET) 2014

Panjab University, Chandigarh

Chief Coordinator (Feb.1,2009-Jan 31,2012)

Emerging Areas in Science and Technology

Chairperson (2009-2011)

Department of Environment and Vocational Studies

Panjab University, Chandigarh

President (20010-2012)

Panjab University Environment Society

Member, Executive Council(2011-12)

Panjab University Alumni Association

Member, Executive Council(2012-2015)

The Indian Fern Society

Coordinator(2010-2011)

System Biology and Bioinformatics

Panjab University, Chandigarh

Coordinator(2009-2011)

Center for Excellence in Biomedical Sciences

Panjab University, Chandigarh

Fellow(2006-2008, 2012-2013)

Panjab University Senate

Member, Board of Finance(2006-2007)

Panjab University, Chandigarh

Warden(1999-2001)

Boys' Hostel No. 1

Panjab University, Chandigarh

AWARDS & ACHIEVEMENTS

- International Birbal Sahni Birth Centenary Award and Birbal Savitri Sahni Honour, 2015
- Professor Pran Nath Mehra Award, 2012
- Professor Y S R K Sarma Award, 2010
- Fellow, Indian Botanical Society, India
- Fellow, Society of Plant Research, India
- Fellow, The Indian Fern Society, Chandigarh
- Awarded National Merit Scholarship, 1970 – 72
- P. A. U. Merit Scholarship, 1973 – 76
- National Merit/PAU Merit Scholarship, 1976 - 1977)
- CSIR - Junior Research Fellowship, Dec. 1977 to Nov. 1979
- CSIR - Senior Research Fellowship, Dec. 1979 to Jan. 1981
- Awarded prizes for standing first in various courses in B.Sc. (Hons. School) & M.Sc. (Hons. School) examinations.
- Selected to participate in an 11 month International training course on Selected Topics in Modern Biology held at Biological Research Centre, Szeged, Hungary, sponsored by UNESCO, 1984-85.
- Contributed about 450 questions items of different patterns to the question bank of AIU, New Delhi.
- Awarded NCC 'B' & 'C' certificates and attended NCC camps as well.

EDUCATION

Banaras Hindu University, Varanasi, India

Doctor of Philosophy 1981

Panjab Agricultural University, Ludhiana

Master of Science (Hons. School) 1977

Panjab Agricultural University, Ludhiana

Bachelor of Science (Hons. School) 1976

PROFESSIONAL HISTORY

Professor	July 1998 to date
Department of Botany	
Panjab University, Chandigarh	
Reader (Open Selection)	May 1989 – July 1998
Department of Botany	
Panjab University, Chandigarh	
Lecturer (Senior Scale)	Feb. 1981 – April 1989
Department of Botany	
Panjab University, Chandigarh	

PUBLICATIONS

- *Research Papers*
Annexure 1.a
- *Book Chapters*
Annexure 1.b
- *Books Authored/Edited*
Annexure 1.c

RESEARCH

- *Specialization*
Experimental phycology, Algal biofertilizers and biotechnology, Algae in aquaculture, Food and environmental phycology, Allelopathy, Azolla Biology, Carbon Sequestration and biodiesel from microalgae
- *Referee for Research Journals*
- *Ph.D. students Supervised/Co-supervised - 16*
- *M.Phil./M.Sc. Students supervised - 30*
- *Research Projects (as Principal Investigator/Co-Investigator) - 08*

For details, refer Annexure 2

ACADEMIC AFFILIATIONS

UGC Nominee on SAP committees (1.4.2015-31.3.2020, 1.4.2016 – 31.3.2021)

- a. Advisory Committee for SAP-DRSIII, Department of Zoology and Aquaculture, A. Nagarjuna University, Nagarjunanagar (AP).(**1.4.2015-31.3.2020**).
- b. Advisory Committee for SAP DRS-1, Department of Environmental Biotechnology, Bharathidasan University, Tiruchirappalli (TN).(**1.4.2016 – 31.3.2021**)

Member

State Level Expert Appraisal Committee, Chandigarh, (May 12, 2016 to May 11, 2019), Notified in The Gazette of India, New Delhi, May 12, 2016.

Subject Expert

Board of Studies in Botanical & Environmental Sciences (PG), Guru Nanak Dev University, Amritsar, Punjab, From 1.7.2016 to 30.6.2018.

Member

External Expert, Faculty of Life Sciences, Kurukshetra University, Kurukshetra, From 1.4.2016 to 31.3.2018.

Chief Editor

Campus Reporter, Panjab University **2011-2013**

Executive Editor **2010-2015**

Vegetos-an International Journal

Executive Member **2006 to date**

Indian Society of Phycology

Member **2003 to date**

Editorial Board

P. U. Research Journal (Science)

Editor **2003 - 2005**

Campus Reporter, Panjab University (Science Section)

Member **2001 to date**

P.G. Board of Studies in Botany, P.U. Chandigarh

Member **2000 to date**

Research Degree Committee, P.U. Chandigarh

Member **2001 to date**

Faculty of Science, P.U. Chandigarh

Member **2001 to date**

Academic Council, P.U. Chandigarh

Coordinator **1997 - 2000**

North-India Chapter of Society of Green Vegetation Research, Calcutta

Nominated Member **1993 - 1994**

Executive Board of Phycological Society, India

Member **1985 - 1986**

Editorial Board, Annals of Biology

Annexure 1.a

Research Papers

1. Taak, J. K., Singh, K. P. and A. S. Ahluwalia 2016. To study hydrogeology and wetland-groundwater interactions around Sukhna Wetland, Chandigarh, India. *Hydrology Current Research* 7(2):1-6. (ISSN: 2157-7587 HYCR, an open access journal).

Annexure 2

Research

Summary of Research Work

- Presented evidences that heterocyst formation is controlled by the availability of photosynthetic products. The correspondence of action spectrum of heterocyst formation with absorption spectrum of photosynthetic pigments supported this finding.
- For the first time it was shown that akinetes of blue-green alga *Anabaena oscillarioides* show division into two daughter akinetes by developing a narrow constriction. This is unique in the sense that these are the perennating structures and their division may be an abnormality or an adaptation to increase the number of perennating reproductive units.
- Pattern formation during akinete differentiation has been recorded in *Nostoc ellipsosporum* and *Anabaena oscillarioides*. The appearance of heterocyst, akinete and nitrogenase activity in these algae has been shown.
- Formation of aseriate packets of cells and their reversion to normal and branched filaments have been shown in *Nostoc ellipsosporum*.
- Indigenous algae are better in establishing themselves in the fields than foreign inoculum and show a better yield thereby supplementing for a part of the urea fertilizer.
- Physico-chemical analysis of proteins from *Spirulina* and some green algae have been studied to find their suitability as food supplement.
- An indiscriminate use of herbicides in rice fields inadvertently would also destroy the precious microflora inhabiting the fields. This microflora is mainly constituted by nitrogen fixing BGA and will substantially cut the yield of the crops growing in these fields.
- It has been difficult to isolate algae forming excessive mucilage during their growth. Our studies have made this easier. Such filaments are kept in dark with light falling from a particular narrow area. The motility of harmogonia towards light area isolated the alga for further culture.
- The presence of heavy metals severely affects the growth of blue-green and green algae thus causing disturbances in the primary food chain. It has been observed that presence of carbon skeleton compounds (acetate; and saccharides) can reduce the metal toxicity, towards these primary producers.
- The change in pigmentation of algae (especially the water-soluble phycobiliproteins) under different light regimes often leads to problems in identification of algae. This change has been found to be regulated by some phycochromes which show red: green reversal pattern as compared to red:far-red system in higher plants (Phytochrome system).
- Role of algae in sewage treatment has been studied. The growth of algal organisms

significantly reduced the biological oxygen demand (BOD) and even colour of the effluents thus leading to amelioration of pollution load.

- Presence of α -linolenic acid (an essential unsaturated fatty acid) has been found in heterocystous blue-green algae (*Nostoc*) alongwith other fatty acids. Long chain fatty acids have been observed only in akinetes.
- Studies have been undertaken on biology of *Azolla* and *Azolla-Anabaena azollae* symbiosis. The behavior of the water fern and its endobiont has been observed under various growth conditions. Temperature and nutrient status have been found to be critical in their establishment and for the maintenance of their association.
- Some observations have been recorded in the biochemical changes occurring during differentiation of heterocysts and akinetes. This information can help in studies of pattern formation in algae.
- Allelopathic interactions have been studied in rice straw: algal system. It is suggested that since rice straw releases toxic compounds during its degradation and kills the useful algae, this practice needs to be taken care of. Leachates even affected the germination frequency of next crop seeds as has been shown by us through explicit bioassays in the laboratory.
- Treatment of sewage wastewaters through algal consortia from native algal flora and possible use of such biomass as fertilizer.
- Potential of Microalgae for Production of Environmental Friendly Biofuel' is in progress

Referee for Research Journals

Annals of Biology, Annales Botanici Fennici, Aquatic Botany, Indian Journal of Microbiology, Indian Journal of Plant Physiology, Journal of Applied Bioscience, Journal of Bio based Materials and Bio energy, USA, Journal of Bombay Natural History Society (JBNHS), Journal of Environmental Biology, Journal of Indian Botanical Society, Phykos, Phytomorphology, Panjab University Journal of Science, Vegetos, Current Science, Letters in Applied Microbiology, J. Applied Microbiology, Pesticide Biochemistry and Physiology, J Environmental Management, Biomass & Bioenergy, etc.

Conferences/Workshops Organized

- Chairperson, Organising Committee of National Conference on, "Current Trends in Plant Sciences with Special Reference to Phycology and Mycology", October 28-29, 2014. Department of Botany, PU, Chandigarh.
- Chairperson, Organising Committee of National Conference on, " Perspectives & Trends in Plant Sciences and Biotechnology", February 21-23, 2014. Department of Botany, PU, Chandigarh.
- 2nd International Conference on Allelopathy, under the aegis of Asian Allelopathy Society, with the theme, Allelopathy: A Multi-faceted Process, December 14-18, 2012, Department of Botany, PU, Chandigarh, as Organizing Secretary.
- Workshop on Microorganisms: Let us Observe and Learn, Supported by Punjab State Council of Science and Technology, Chandigarh, NCSTC, DST, GOI, New Delhi, November 14-16, 2011, Department of Botany, PU, Chandigarh. As Chairperson and Convenor.
- Biotechnica Chandigarh 2010, Panjab University, Chandigarh, November 16-17, 2010, as Chairman of the Organizing committee.

- 13th Punjab Science Congress, with the theme Climate Change: Concerns and Solutions, Panjab University, Chandigarh, under the aegis of Punjab Academy of Sciences, February 7-9, 2010, as Organizing Secretary.

Radio Talks/Popular Lectures

- Invited lecture on “Power of Prayer, DAV College, Chandigarh, September 27, 2014.
- Algal blooms and aquatic life: an interview in Punjabi. AIR, Jalandhar. August 9, 2001.
- Local flora, Ornamental plants and Forests of Punjab. AIR, Jalandhar (In Punjabi). March 19, 2001.
- Chemical communication in plants. AIR, Jalandhar (In Punjabi). November 5, 1999.
- Bioluminescence in plants and animals. AIR, Jalandhar (In Punjabi). Aug. 12, 1999.
- Spirulina – The powerful food. AIR, Jalandhar (in Punjabi). May 20, 1999.
- Algal fertilizers in rice. AIR, Patiala (in Punjabi). April 7, 1998.
