Lucknow

Event Organised to commemorate 'International Day of Climate Action-2023'

NBRI-EIACP organized a highly successful event in celebration of the International Day of Climate Action on 26.10.2023. The event was held at CSIR-NBRI, and it brought together a diverse group of students to raise awareness about the urgent need for climate action.

The International Day of Climate Action is an annual event that serves as a global call to action for addressing the critical issue of climate change. NBRI-EIACP recognized the importance of this day and organized an event to inform, inspire, and mobilize individuals to take concrete steps towards a more sustainable future.

Dr. N Manika, Programme Officer, NBRI-EIACP commenced the event with an opening statement on changing climate and a short interaction on how individuals are perceiving the climate change effects.

It was followed by an inspiring talk by **Dr. Richa Rai, Senior Scientist, CSIR-NBRI**, who emphasized the urgency of climate action and discussed the potential impacts of the rapidly increasing climate change. Topics included renewable energy, sustainable agriculture, conservation, and day to day climate actions. Participants gained valuable insights into practical solutions.

Mission Life Pledge was also taken on the occasion. More than 25 individuals attended the event.

The event successfully raised awareness about climate change and its implications, fostering a greater understanding among the participants.

Overall, the International Day of Climate Action event was a significant step toward addressing climate change and fostering a more sustainable future.
